THERE was a large attendance at the performance of the sacred melodrama, The Prophet of Hebron at the Italian Convent yesterday evening, and, as is always the case at these entertainments. the performers acquitted thomselves very creditably. 'The Prophet of Hebron,' a five-act piece, is a pretty large undertaking for a body of youthful performers, and the success with which it was presented certainly implies a great amount of intelligent study and careful training. The audience showed their appreciation of the entertainment by frequent applause. Some of the solos were remarkably well. sung, and the singing all through gave evidence of excellent tuition. The dresses were very artistic and effective. A word of praise is due to the accompanial, who performed a somewhat formidable task in a very satisfactory manner. As will be seen from an advertisment, the performance will be repeated on Monday evening.

A HINT TO ENGLISH TRADERS. - Recent consular reports from Italy and Japan bays referred to the loss of trade owing to firme in England sending to those countries oirculars and price-lists based on the English weights and measures. The metric system. is used in those countries, and par French, German, and other competitors use it in their quotations; but the English firms in question are content to puzzle buyers with weights and measures which are very troublesome and not understood. A similar complaint new reaches us from Egypt in a us consular report just issued, which points out that our weights and measures are tutterly unintelligible to a large proportion 12th instant, and is due here on or about of the persons to whom export houses in this country forward their circulars and price-lists in Alexudria and Cairo. THE ENOWBALL. Sydney Grundy's farcical comedy, 'The Snowball, which was performed at the Theatre Royal last night by the Amateur Dramatio, Club, did not attract quite so large an audience as one might have expected, and certainly not so large an audience as the manner of its performance deserved. It is very satisfactory, however, to have to put the A. D. C.'s first performance of the season on record as distinct success as far as acting went. It is also very satisfactory to be able to say that some one has been found with sufficient intelligence and experience to find a way to improve the acoustics of the house and the lighting of the stage. The improvements in these matters which were so conspicuous Police seconded and the motion was at last night's performance no doubt aided greatly in making the comedy the success which it was. As regards the bill of fare which the

A. D. C. presented last night, it was by no means the best they are capable of giving, but it was very acceptable. 'The Snow ball is indeed a farcical comedy, with the emphasis on 'farcical.' It is pure " frivoling." but it is amusing, and are we not constantly being told that it is something of this kind that most people want when they go to the theatre? One effective 'curtain' is obtained by a man being chased all over his house by his wife, his uncle, his niece, his man-servant, his maid-servant and the stranger within his gates ! #### THE SANITARY BOARD.

A meeting of the Sanitary Board was held this afternoon. Hon. J. H. Stewart Lockhart. Registrar General, presided. There were also present :- Hon. F. A. Ocoper, Acting Surveyor General; Mr G. Horspool, Acting Superintendent of Police, Mr J. D. Humphreys and Mr H. McCallum Sanitary Superintendent.

THE BOARD SNUBBED. The President said a letter had just been received from the Colonial Secretary, which, with the consent of the Board

would now be read. The letter referred to the resolution passed at last meeting with regard to Mr Cooper's dual capacity of Vice President and Sanitary Surveyor, and stated that the advice of the Board was not asked with regard to Mr Cooper's appointment as Vice President, His Excellency having already made the appointment. What was asked was whether the Board wished another gentleman appointed as Sanitary Surveyor, and to that question an answer was desired. The President said the question was whether in view of the fact that the filling up of the post of Surveyor General would not be long delayed, it would be wise to upset the

present arrangements. Mr Hamphreys moved that a reply sent that in the opinion of the Board it was not desirable that anyone should be appointed in place of Mr Covper. The Acting Captain Superintendant of

ENGLAND AS A LAND OF GOLD. (Cassell's Saturday Journal.)

A little boy playing once in an Essex courtyard by throwing stones one against the other was surprised to see a glittering substance in the heart of a paving stone which he had broken during his operations. Ho, however, paid no attention to this discovery, but on finding another piece of the bright metal in a second piece of quartz in the yard, he took it to a jeweller, who pronounced it to be a nugget of remarkably fine gold, and gave him sixpence for it. A member of the boy's family, hearing of this unusual occurrence, bought back the bit of gold as a curiosity. Afterwards other particles of the precious metal were found, and in consequence efforts were made, without success, to discover whence the paving stones in the court came, fer it was clear that in their habitat there was elso a considerable quantity gold. Before this interesting event. and since, gold had been and has been discovered, in many parts of the United Kingdom. Not quite so often as announced, it is true, for not infrequently the substance found has proved to be as comparatively worthless as it was in a case mentioned by Sir Lyon Playfair. Lecturing on the subject of gold, the distinguished scientist exhibited an imposing iron box, with contents were supposed to be gold, from a undoubtedly been found in nearly all parts of our country.
